

# When My Grandparents Visit

We are always excited to see my grandparents because they are very fun guests. Because they will be staying with us, we make sure to get our home ready for them. They stay in our guest bedroom, so my dad puts clean sheets on the guest bed. My grandmother likes fresh flowers, so my mom puts a vase of daisies by their bed. I always plug a night-light into the wall so they can see at night.

We don't want them to be bored while they are here, so we think of lots of things we can do with them. My brother loves animals. He goes to visit the zoo with them. My sister asks them to take her to the art museum. She loves to look at paintings. I just want to go shopping with my grandfather so we can buy interesting foods to cook for dinner.
