

# Lions

Lions are one of the most powerful and impressive members of the cat family. Male lions have golden brown manes. Female lions do not have manes. Lions have large, powerful paws and sharp teeth and claws. They are also very fast.

What is the main idea of this paragraph?

- A. Lions are powerful, impressive members of the cat family.
- B. Male lions have large manes, but female lions don't.
- C. Lions are very fast.

Lions live in large groups that have a few male lions and several female lions and their cubs. These groups are called prides. Prides follow strict rules. Female lions hunt for prey.

What is the main idea of this paragraph?

- A. Female lions hunt for prey.
- B. Prides follow strict rules.
- C. Lions live in large groups called prides.

Female lions give birth to two to four babies at a time. The babies are called cubs. The cubs wrestle and play with each other to build strength and practice their hunting skills.
