Friday, May 25, 2018

9:30 AM–12:30 PM
Showcase to Coding Students

12:30–1:30 PM
Showcase to Parents

BISD students will showcase their educational technology and coding skills to students and parents. Schools will be challenged to demonstrate their digital skills by utilizing different learning platforms in the content areas to include coding (Scratch, CS First, Code. Org) as part of the student summit demonstration. Early college high Ischool and middle school students will also showcase their educational technology and coding programs to all who attend this summit.

For more information, call the Curriculum & Instruction Department at 548-8121.
